Education

I study Software Engineering at PUC Minas. I started in Computer Engineering and later moved to Software Engineering. My stated academic period is 2022–2027.

Professional experience and initiatives

Quero Meus Direitos / ≈ 2 years

Experience at a Brazilian legal technology startup applying automation and AI to access to legal services and rights.

EMATER / ≈ 8 months

Professional experience at EMATER.

Projeto Celesto / 03/2025

Founder. Automation and computing applied to the search for celestial bodies and astronomical activities.

Tools and technologies

Languages: C, C++, Java, Python, C# and JavaScript.
Engineering: Spring Boot, Maven, React, Node.js, REST APIs, SQL and JSON.
Systems and tools: Linux, Ubuntu, Docker, Git, GitHub, CMake, GCC and Clang.
Automation: automated testing, document processing, OCR, CLI tools and browser automation.

Selected projects

H-Suppression

Experimental algorithmic decision architecture

pdfall

Hybrid extraction and OCR for PDF documents
